

POINTERS TO PROTECT AGAINST THE SMALL POX

Dr. Joe Whiting, an Expert in Dealing with the Disease in Cuba, Offers a Few Pertinent Suggestions at This Time.

THOROUGH BELIEVER IN VACCINATION

He Says That the Affected Cases Should Be Isolated in a Properly Constructed Hospital—Symptoms of the Dread Disease.

Editor Gazette: Your request that I prepare an article on small pox for the columns of your paper has been received. That such an article is timely and should be in the possession of everyone is not doubted, but fearing that it will not be received by the public in the spirit that it is written causes me to hesitate in complying with your request to guard against this article placing me in a false light. I wish to preface it with the following statement: First, I believe that small pox is the most loathsome, most vicious and most tenacious of all of the acute infectious diseases.

That I believe in its isolation; and such isolation should be a properly constructed and equipped hospital.

There Should Be a Law

Second: I do not believe in and do now condemn the practice of throwing a small-pox patient into a cold, damp, ill-ventilated building feeding him at arms length, unwholesome foods and not nursing him at all.

Third: That I condemn and denounce as barbarous, the entrusting of these patient's lives in the hands of men attendants whose only qualification is that they have survived a siege of the plague.

Fourth: That there should be a law (that will stand the test) isolating these cases in a properly constructed and equipped hospital and that the expense should be defrayed from the public funds.

Fifth: That I believe in vaccination, properly done, with the same precaution that other surgical work is done.

Vaccination is a Preventative

I believe that vaccination prevents small pox in a large majority of cases and modifies the disease in those whose surroundings are such that "they cannot help" becoming infected (i. e. poor people crowded into filthy ill-ventilated tenement houses, physicians and nurses in attendance.)

Sixth: That there should be a law compelling vaccination, and be under the control of the state board of health. The expense of which, shall be borne by the state, not the individual.

For the lally to say that vaccination does not prevent small pox; and for the physician to take up such an argument, is lack of knowledge in one case and lack of judgment in another. The great men, the masters in our profession, who have told us that vaccination did prevent small pox, were students of Physiology Pathology and bacteriology; tireless workers, who knew nothing of the outdoor world, who knew little else than the microscope and its wonderful revelations, students whose valuable lives have been spent in the laboratory.

What Statistics Show

Students who have lost their health, their eyesight, their lives at this work, tell us that it is so. Is it for you and I to say that it is not? Statistics of every important epidemic occurring on the globe, show the terrible mortality among the unvaccinated and the comparative freedom and mildness of the attack in the vaccinated.

You now believe that you can hear a man's voice from Chicago over a wire, because it has been demonstrated to you. But it will be well for this community to believe in vaccination before and not after it is demonstrated.

During the great epidemic in Philadelphia, out of 2831 cases of small pox occurring in the unvaccinated, 1621 died, a mortality of over 54 per cent., while out of 2169 cases in the vaccinated, only 28 died, about 1.3 per cent. In Montreal, Canada, there was an epidemic lasting from 1870-1875, where it was finally stamped out by isolation and vaccination. From then until 1885 there were no cases of that disease and on account of the opposition to vaccination by the French-Canadian element in the population, the younger inhabitants grew up unvaccinated.

On Feb. 28, 1885, a Pullman car conductor, who had traveled from Chicago, where the disease was prevalent, was admitted to a hospital, isolation was not carried out and on April 1st, a servant in the hospital died of small pox. The disease spread like fire in dry grass. Within nine months there died in Montreal of small pox 3164 persons.

The Disease Variolo

The disease variola or small pox as it is commonly known, is an acute eruption, which passes through the stage of vesicle, papule pustule and crusts. The period of incubation (i. e. the date from the exposure until the first symptoms show) widely ranges from 8 to 20 days, depending upon the natural resistance of the person exposed. The first symptoms, which terminates the period of incubation and marks what is now commonly ac-

cepted as the first day of the disease is a chill or there may be a succession of chills. In children, convulsions or a succession of convulsions then follows in quick succession intense frontal headache pain in small of the back, radiating down the hips to the thighs and knees and vomiting, followed by rapidly increasing fever.

The chill (or in children) convulsions, followed by severe headache, backache and vomiting are a chain of symptoms which should place even the most ignorant on their guard.

Two Kinds of Rashes

There are two kinds of rashes make their appearance on the day of the chill which has led to many mistakes in an early diagnosis. One looks very like the rash of scarlet fever and the other like measles, hence the error in the belief the measles or scarlet fever were associated with small pox. The eruption makes its appearance usually on the 4th day after the chill and is recognized as small red spots, (papules) on the forehead at the hair line and on the wrists.

They have the characteristic feel of small shot under the skin. Within the next 24-36 hours they make their appearance on other portions of the body, spreading from the forehead to the face, from the wrists to the arms, then legs and lastly and most sparingly on the trunk. As the rash "comes out" the fever subsides and the patient feels better. On the 6th or 7th day the papules change to vesicles and look like "pimples" with water in them.

Each one is elevated, oval and has a depression at its summit. On the 8th or 9th day the vesicles change into pustules, this change being due to the clear serum changing into pus, and the summit of the pustule looks a great deal as any "pimple" looks that has "come to a head", when the eruption reaches this stage it is said to be matured. Maturation of the eruption takes place in the same order that it makes its appearance, i. e., forehead and wrists, then face, arms, legs and lastly on the body.

Progress of the Fever

Now the fever rises again and is called "secondary fever" and all the general symptoms return, headache, backache and vomiting, (in young children convulsions) now in mild forms of the disease, (such as is now passing over our state) the secondary fever, with its renewed general symptoms, subsides at the end of 24 to 30 hours, the pustules commence to dry, crusts form and the patient goes to an uneventful recovery. Complications and "after effects" are happily rare indeed.

It is not necessary to go into the severer forms of the disease. The article is all too long now and then the Gent pictures are uninviting and full of sorrow and distress. We ought to thank God that this wave of small pox passing over our state is almost without exception of the type I have described to you.

Take Care of Mild Form

Do not be led astray in your vigilance by a statement that "it is a very mild form of the disease." Persons have contracted the most malignant type of small pox from the mildest form. And this is true of all the infectious or transmittable diseases. Remember (a) that a person sick with small pox is capable of transmitting the disease from its earliest symptoms until disquamation, (scaling of the skin) has ceased and the skin becomes clear and natural.

(b) That the disease lurks in all the secretions and excretions of the body and from the exhalations from the lungs and skin.

(c) The young, the debilitated and the dissipated suffer most.

(d) The danger is proportionate to the intensity of the eruption on the face and hands.

It is no advantage to have the eruption on the body few and far between if the hands and face present the confluent (run together) type of eruption. What shall be done with the exposed rooms with their contents such as upholstered furniture, drapings, clothing, &c., must be left to your medical adviser and the health commissioner.

In this state you are re-imburshed by the state for any loss of property destroyed by the board of health.

Protection to Others

Remember when you are quarantined; that is a protection that those in health have a right to demand; just as it is when Mr. A. and his family are quarantined, it is a protection to you and your little ones. Under the law you are obliged to obey the quarantine. Under penalties of the law it is demanded of you,

VICTORY FOR ILLINOIS CENTRAL

Road Gets Title to Fifty-three Acres of Lake Front Land at Chicago.

Chicago, Feb. 4.—The Supreme Court of the United States yesterday affirmed the title of the Illinois Central Railroad to all the lake front land claimed by it between Randolph street and the Chicago River and between Twelfth street and Sixteenth street. Fifty-three acres of land, of which ten are still partially submerged, worth a total of \$10,000,000, were thereby made indisputably the railroad's property.

Spectators Killed in Explosion.

Boyetown, Pa., Feb. 4.—Four spectators were killed and one fatally injured by an explosion of gasoline last night in the bakery of George Carver. Henry Shaner, his son Frank, George Gormin and Charles Hough, a boy, were killed and George Fry was injured.

HOUSE LEADERS GIVEN A SHOCK

Twaney Stands by Babcock to Put Steel Products on the Free List.

Washington, Feb. 4.—The quartet of House leaders—Speaker Henderson, Chairman Payne, Dalzell, and Grosvenor—had another shock yesterday when the committee on ways and means came within one vote of adding the Babcock bill for transferring steel products to the free list to the war-revenue reduction bill as an amendment.

The committee had under consideration the bill to reduce the war revenue and Babcock moved his bill as an amendment. There were two democrats and two republicans absent. Representative Twaney voted with Babcock, as did the four Democrats present, making the vote six to seven.

The desertion of Twaney from the high-protection camp gave Chairman Payne a severe shock and though he prevented the Babcock bill from becoming an amendment to the war-revenue reduction bill he felt his power slipping from him and threatened to have both Babcock and Twaney removed from the committee.

It was the beginning of the downfall of Chairman Payne. He and Dalzell and Grosvenor have, with the speaker, assumed to run the house, and they found that tariff agitation would continue in spite of their efforts. Babcock intends to again present his bill to the committee and then, if turned down, as he will be, he will appeal to a republican caucus of the house.

DEAD NUMBER EIGHTY-FOUR

Bodies, Terribly Mangled, Still Being Taken From Texas Mine.

Eagle Pass, Texas, Feb. 4.—Eighty-four bodies and sixteen men barely alive, some of them terribly mangled, have been taken from the Honda mines.

The shaft had 118 men enrolled and eighteen are still missing. Twenty-five dead mules have been taken from the shaft. The damage to property is also very great.

The company has obtained all the physicians and nurses that can be secured from all points and is doing everything possible to save any of the miners who may still be alive.

There is a pathetic story of a little ruleteer who came up alive. His brain was injured and he kept running around in a circle. His brother recognized and embraced him, and the boy exclaimed, "My brother." On being released he again began running around and dropped dead.

ACCIDENT ON THE ILLINOIS CENTRAL

Passenger Train Crashed Into Freight—Fireman White Killed, and Engineer Injured.

Six miles from Rockford, Ill., this morning at Alworth, a passenger train on the Illinois Central crashed into a freight that stood on a siding. Fireman White of the freight crew was killed and Engineer Mitchell injured. Both men lived in Freeport.

BRITAIN REJECTS DUTCH PROPOSAL

Paris, Feb. 4.—The Dutch premier Kuiper in an interview published here today says his recent visit to England was to see how the wind was blowing regarding the South African war. He is quoted as saying it was blowing in the direction of peace and that the King was anxious to have it proclaimed before the coronation.

London, Feb. 4.—Lord Kitchener reports today that the Boer casualties during the week were 28 killed, 6 wounded, 142 captured and 48 surrendered. He also reports that the Boers held up and burned the British supply train in the Cradock district on Feb. 1.

SPARKS FROM THE WIRES.

Dwight, Ill., Feb. 4.—The entire plant of the Keeley Institute and Livingston hotel were burned this morning, losing a quarter of a million.

Albany, N. Y., Feb. 4.—The annual convocation of the grand chapter of royal arch masons opened in ample form here today.

New York, Feb. 4.—The Standard oil company today declared a dividend of twenty dollars per share for the quarter.

WAS A SHOCK TO BRODHEAD

Suicide of Charles Taylor, Owing to His Ill Health.

WAS TIRED OF LIFE

He Had Grown Despondent Because of an Incurable Spinal Disease.

SHOT THROUGH HEAD

Brodhead, Wis., Feb. 4.—The people of Brodhead were shocked this morning when it was learned that Charles Taylor, son of Druggist D. W. Taylor, had committed suicide on the farm of his father about one mile from this town.

The young man was about twenty-eight years of age and had suffered severely for some months with an incurable spinal disease. He had grown despondent and moody, and lived most of the time on the farm, avoiding people.

This morning about 8:30 he telephoned his father in this place that he had grown tired of living and that he was going to end his life. The father lost no time in getting out to the farm but when he arrived there he found Charles dead from the result of a pistol wound in the head.

It is thought that in a mad moment, suffering from his disease, he concluded to end it all and deliberately shot himself.

He was well known in this town, a highly respected, intelligent and industrious man, and his sad death causes sorrow among all who knew him.

He leaves a father and mother, three brothers and three sisters. A coroner's jury is being impaneled and an inquest will be held this afternoon.

E. P. Hassinger Drops Dead

E. P. Hassinger, a well-known retired business man dropped dead while reading a newspaper in Hahn's clothing store this forenoon.

A clerk ran to pick him up but life was extinct. His death was instantaneous, from heart disease probably.

He was seventy-six years old, hale and hearty. He owned the Model Grocery for many years and was a man of means. He was well-known and popular among those who knew him. He leaves a wife.

Mr. Hassinger was the candidate for Lieutenant Governor on the socialist ticket two years ago. He was a man that stood high up in the councils of that party.

SECRET BURIAL OF BIDDLE BROTHERS

Ed. Went to His Grave with a Portrait of Jessie Bodine on His Breast.

Pittsburg, Feb. 4.—To prevent the demolition of the coffins and the mutilation of the bodies of Edward and John Biddle which in all probability would follow their burial if the spot were generally known, Harry Biddle has arranged a secret plan to dispose of his brothers' remains without letting the public know where or when the interment will take place.

The county authorities do not believe Ed Biddle's dying statement implicating Jennie Seebers in the Kahney murder and it is not likely that any action will be taken by them.

Ed Biddle will go to his grave with a portrait of his old sweetheart, Jessie Bodine, and a lock of her hair near his heart. When Butler officers searched his blood-stained clothes they found in his coat pocket a crumpled bit of paper, stained with blood. In it were wrapped a newspaper portrait of Jessie Bodine and a lock of hair unmistakably hers. It is black and curly. So he was true to her at last, despite his protestations of love for Mrs. Seffel.

Pittsburg, Pa., Feb. 4.—The bodies of John and Ed. Biddle were exposed to public view in the morgue three hours this morning. Several thousand people passed before the coffins. There were 22 men and women in the crowd. The coffins were decorated with flowers sent by an unknown woman.

STIR ABOUT DANIELS

Washington, D. C., Feb. 4.—A dispatch from Cheyenne, Wyo., to the effect that Daniels recently appointed United States marshal of Arizona by Roosevelt, is an ex-convict has created a flurry in the senate and about the White House. The facts in the case will be laid before President Roosevelt and he may call for the resignation of Daniels.

WIND IS BLOWING TOWARDS PEACE

London, Feb. 4.—It is officially announced that the British government has rejected the Dutch peace proposals.

Colon, Colombia, Feb. 4.—The revolutionary steamer Liberia is said to have been sunk by a Venezuelan gunboat while undergoing repairs at Port Colombia.

J. W. Owen arrived in the city on Monday from Chicago. He will be connected with the Chicago Dental parlors.

FOUR DIE IN COLLISION.

Negligence Causes Train Wreck on Illinois Central Near Dubuque, Iowa.

Dubuque, Iowa, Feb. 4.—A rear-end collision yesterday morning on the Illinois Central at Apple River, Ill., resulted in the death of four stockmen while six were seriously injured. The dead: M. C. Lawler, Wall Lake, Iowa; H. F. Panekke, Wall Lake, Iowa; Chris Ferndon, St. Ansgar, Iowa; C. R. Blunt, Charles City, Iowa.

The seriously injured are: W. Cameron, Dundee, Ill.; badly crushed and not expected to live. F. J. Jordan, Dunlap, Iowa; injured about ribs and back. D. Lawler, Wall Lake, Iowa; injured about the breast and legs.

The slightly injured are: J. J. Morehead, Dunlap, Iowa; W. J. Evans, Dunlap, Iowa.

The wreck was due to negligence.

STREET RAILWAY CO. FILES ITS RECEIPTS

Total Receipts for the Year Were \$13,480.66—The Net Income Was \$808.87.

Madison, Wis., Feb. 4.—All but five of the nineteen street railway companies and electric lighting companies of the state have filed their annual reports with Railroad Commissioner Graham L. Rice. On the whole the reports show that the business of these companies during the past year was excellent.

The report of the Janesville Street railway company is as follows: Length of track, 7 miles, all in Janesville. The capital stock of the company is \$50,000, outstanding. Its bonded indebtedness is \$75,000 in first mortgage bonds and its floating indebtedness is \$75,000 in first mortgage bonds and its floating indebtedness is \$12,025.11.

The total receipts for the year were \$13,480.66. The total disbursements not including taxes, were \$13,962.56. The total amount charged to construction was \$1,502.30, and to operating expenses \$12,460. The net income was \$808.87.

NORMAL SCHOOL REGENTS NAMED

Governor La Follette Appoints Frederick Scherber of Milwaukee, and Dr. Bishop of Lancaster.

Madison, Wis., Feb. 4.—Governor La Follette last night announced the appointment of Attorney Frederick Scherber of Milwaukee and Dr. Thomas W. Bishop of Plattville as members of the state board of normal school regents. The appointment is for a term of five years. The former succeeds Attorney Gustav Wollacker of Milwaukee, and the latter T. Jenkins, Jr., of Plattville.

Attorney Scherber is a democrat and succeeds a republican, while Mr. Bishop is a republican and succeeds a democrat. It has been a time honored custom to retain one democrat on the board. Dr. Bishop is a well-known practicing physician of Grant county.

The governor has not yet appointed a woman member of the board as authorized by the legislature last winter.

The board begins its regular semi-annual meeting today.

WATERBURY LOSS OVER TWO MILLIONS

Waterbury, Conn., Feb. 4.—The loss in the conflagration which wiped out the heart of the city is estimated this morning at two and a quarter millions of dollars by the chief lossers. Gangs of workmen began clearing away the ruins today by blowing them up with dynamite. Scores of families are made homeless by the fire were taken in and cared for today by wealthy families and assured of permanent help.

WORKING ON MINING SCALE.

Operators Make Firm Resistance to Proposed Advance in Wages.

Indianapolis, Ind., Feb. 3.—The joint scale committee of miners and operators began work on the scale for the coming year behind closed doors yesterday.

The scale was taken up serially. The first proposition was for the 10 per cent advance. F. L. Robbins, on behalf of the operators, met this demand with a counter proposition for a 10 per cent reduction.

The arguments were for the most part the same as were advanced in open convention. The operators offered figures taken from the records, they said, to show that the price of coal has decreased and that accordingly they should not be compelled to pay the men the same wages as for the last two years. According to their figures they are receiving from 10 to 15 cents per ton less than they did in 1900.

Owing to the feeling manifested by both sides, it is not believed that an agreement will be reached before Saturday, and maybe not then, but in no event is a lockout looked for, because the miners and operators for the last four years have been able to agree finally on something.

A. P. Ball and A. W. Martin of Beloit were in the city yesterday on business.

ATLANTIC COAST SWEEP BY GALE

Damage Done by Wind and Waves on Land and Sea.

A LIST OF WRECKS

Many Vessels Ashore or Foundered, and the Wind is Still Howling.

TRAINS IN BIG DRIFTS

New York, Feb. 4.—The gale which has been raging along the Atlantic coast, from the Carolina Capes north, since Sunday morning, has strewn the coast with the wreckage of ships and barges. The greatest destruction and the greatest strength of the gale has been along Long Island and the Jersey coast.

How many vessels have been lost and how many persons drowned cannot be guessed. Every life-saving station along the coast reports ships foundering at sea or driven ashore. The beaches are strewn with wreckage.

So far no great disaster has been reported. The big ocean liners have ridden out the storm without trouble. The vessels lost or in trouble, so far as reported, are as follows:

L. SCHEER, American merchantman, ashore near Long Beach, La.
UNKNOWN SHIP, ashore near Fire Island.
SCHOONER EDITH L. ALLEN, ashore near Atlantic City.
STEAMER DRUMMOND, ashore in Delaware Bay.
STEAMER EUROPE, ashore in Delaware Bay.
TUG JOHN E. RERWIND, foundered near Sandy Hook; crew rescued.
TUG R. S. ATWOOD, foundered near Sandy Hook; crew rescued.
TWO BARGES, lost either by the Cuba or tug Richmond; broken up on Long Island; bodies washed ashore.
BARGE, ashore near Ford River Station.
SCHOONER R. D. BIBBER, ashore near Delaware Breakwater.
TWO BARGES, broken up on beach near Belle port.
BARGE, riding in trouble off Shinnecock, Wild Blizzard on Land.

On the land the damage has been almost as great as at sea. A terrific blizzard has been raging through northern Ohio, Indiana, Michigan, Pennsylvania, New York, and New England. Wires are down in every direction. Traffic is at a standstill in wide stretches of the country. Trains are stalled in heavy drifts in the mountains, towns are in darkness. Through northern New York, and Pennsylvania a terrific gale has been blowing, and the property damage will be heavy. The gale caused the snow to drift badly, stopping street car traffic in dozens of cities.

Both Vessels Are Saved

Long Beach, L. I., Feb. 4.—The crews of the American Clipper Ship L. Shepp and the British steamer Canover stranded on the beach here within a mile of each other and are safe. During the night the wind and sea abated so that at daylight the life savers were able to board both ships. The crews suffered fearfully, but decided to stand by their ships. The wreckers expect to float the vessels some time today. The captain of the Shepp and his men had about given up hope.

Storm Reaches a Climax

Hallfax, N. S., Feb. 4.—The storm which caused so much damage throughout this section seems to have reached a climax. The storm was the worst in years. Reports so far show at least a dozen vessels wrecked off the Newfoundland coast.

Azroned on the Shoals.

Philadelphia, Pa., Feb. 4.—Reedy Island reporting station notifies the maritime exchange that the British steamship Drummond, Philadelphia for St. Thomas, is aground on Dan Baker shoals in the Delaware bay, about fifty miles below this city.

Blown from Her Anchorage.

Delaware Breakwater, Del., Feb. 4.—The schooner R. D. Bibber, from Mobile for New York, which put in here for harbor on Dec. 20, was blown from her anchorage, by the high wind and is now aground on Marshall shoal.

Freight Trains Stalled.

Syracuse, N. Y., Feb. 4.—The hardest snowstorm of the season is raging in central New York. Traffic has been abandoned. It will be several days before freight can be moved.

Two Barges Lost.

Fall River, Mass., Feb. 4.—The tug Cuba of the Staples Coal Company of Taunton last night reported the loss of her two barges, Matanzas and Cardenas, off Block Island during the heavy gale.

Schooner Goes Ashore.

Atlantic City, N. J., Feb. 4.—The four-masted schooner Edith L. Allen went ashore on the Brigantine shoals this afternoon.

Twenty-one Lives Lost.

London, Feb. 4.—The first officer of the French ship Chanaral was landed at Falmouth yesterday. He is the sole survivor of the crew of twenty-two men of the vessel, which was capsized off Ushant. After tossing helplessly in the English channel for sixty-five hours the Dover-Ostend passenger steamer Marie Henriette was towed into Ostend yesterday.

F. H. Dwinell and Robert Geos-

lowski, of Baraboo were in the city last evening en route to Freeport, Ill.

The News From County Towns.

MILTON

Milton, Feb. 4.—The German Lutherans are going to build a church in this village and Mr. Herman Frederich is now soliciting subscriptions from our citizens for that purpose. He is meeting with encouragement and we trust that all who are able will contribute.

Mrs. Catherine Reynolds celebrated her ninetieth birthday on Friday last. A goodly number of her friends called and congratulated her and left behind appropriate remembrances of the occasion. Mrs. Reynolds came to Milton in 1865 and is the oldest person in the village. Her lameness prevents her from going about town but her general health is good and her mental powers are excellent.

The ordinance of Baptism was administered at the Seventh-Day church by the Rev. Dr. Platts Friday evening when the following named persons, who were candidates for church membership, were immersed: Misses Edna Schlagenhauf, Lenora Johnson, Irene Stillwell, Mary Brown, Nancy Brown, Doris and Allie Stockley, Mildred McClafferty, Dena Burdick, Lela Ross, Mina Babcock and Lurlei Campbell, Percy Burdick and Arthur McWilliams. The following persons joined the church Saturday by letter and verbal testimony: Mr. and Mrs. A. M. VanHorn, Mrs. Lou B. Van Horn, Mrs. Maggie W. Brown, Misses Gelse Woolley, Ella McWilliams, Mrs. Emma Anderson, Elam Coon and P. B. Hurley. This made a total of twenty-three persons who united with this church on that day.

Mr. and Mrs. E. D. Bliss gave a reception Saturday to Mr. and Mrs. Sam W. Clarke. Music and refreshments were added to the social feature of the occasion, the attendance being confined largely to the younger element of society.

Mrs. Mack of Richmond is here assisting in the care of her uncle, J. I. Mack, and his son, Frank I. Mack, of Cartwright came Sunday.

Miss Anna Jordan took the train Sunday for Chicago where she will visit relatives and friends.

George S. Davy is again night operator at this station and Operator W. H. Tompkins has decided to take a vacation prior to "pounding the key" again.

The rural route from this office handled the largest number of pieces of mail during January of any month in its history.

William Platts has been quite sick for several days.

James I. Mack is still dangerously ill with a complication of lung and heart troubles and his recovery is a matter of doubt.

Miss Ida Shetter of Stoughton, visited her sister Mrs. A. J. Root, this week.

Saunders' band will furnish music for the annual masquerade of the M. W. A. at Johnstown Center, tomorrow evening.

Mrs. G. W. Fetherston went to Chicago, Saturday, with her son and daughter, where she will remain for the present.

Mr. and Mrs. Samuel W. Clarke visited Edgerton relatives Sunday and left Monday for their home at Independence, N. Y.

Clem W. Crumb spent Saturday and Sunday here.

Wm. Home came out from Milwaukee Sunday.

Ray W. Clarke and Miss Alice Clarke visited at Edgerton on Sunday.

Three below zero Saturday night and thirteen below Sunday night.

CLINTON

Clinton, Feb. 4.—Messdames J. C. Benckee, J. W. Jones and W. S. Thom issued one hundred and fifty invitations for a McKinley Tea on Thursday, Jan. 28th at 6 o'clock. As the guests arrived they were seated at tables placed in the different rooms. The flowers were beautiful pink carnations. After the first course was served the following toasts were responded to: Dr. J. W. Jones acted as toastmaster, "McKinley as a Boy."

ABSOLUTE FAITH.

You can depend upon the word of this Janesville Citizen.

He has had the experience. He has thoroughly tested the article.

He has found it as represented.

He has absolute faith in its merit.

Mr. L. Lawrence, of 408 S. Franklin st., engineer at the Janesville Electric Light Co., says:

"Seven years ago I injured my back by falling through a bridge near Atton, into the Rock River. I was on a traction engine, its weight broke through, and the whole thing went into the stream. Since that time my back has ached by spells, sometimes very severely. If I caught cold it settled in my kidneys and if I brought a strain on my back lifting, the result was a bad backache and sharp twinges of pain in my loins. I procured Doan's Kidney Pills at the People's drug store and after I used them I was free from backache, and in better health than at any time since falling through the bridge."

Sold for 50 cents per box by all dealers. Foster-Wilburn Co., Buffalo, N. Y., sole agents for the U. S. Also on sale at King's Pharmacy.

Remember the name, "Doans," and take no other.

Mrs. J. Winnegan. "McKinley as a Student," Mrs. E. H. Tubbs. "McKinley as a Soldier," Hon. S. S. Worthington. "McKinley as a Statesman," Wm. Jones. After another course was served the toasts were again resumed. Mrs. L. Olds responded to "McKinley as a Husband." Prof. Loveland to "Mrs. McKinley." Mrs. L. Simmons. "The Legacy of the Life of Pres. McKinley," after which all joined in singing, "Nearer My God, to Thee," led by Miss Inman. After which the remaining viands were served to satisfy the inner man and the company spent the remainder of the evening in a most pleasing manner. The house was resplendent with festoons and draperies of red, white and blue and the ladies received many words of praise for the unique and delightful evening entertainment.

The "Pocahontas Club" is the name the ladies have given to a new society formed by them for the purpose of self improvement. The first meeting was with Mrs. C. L. Hanson last evening. The subject was Jean Ingelow's works and a short paper was read by Mrs. Loveland. As the roll call was made each member responded with a quotation from the said author. The next meeting will be held with Mrs. L. L. Olds, Feb. 10th, when the poet Longfellow will be the topic for a half hour, after which a social hour will be spent.

John Oudell, the well-known horse-trainer, died at his home four miles south-west of here Friday, Jan. 31, leaving a wife and seven small children. The funeral was held Sunday afternoon, the Rev. William Moore officiating.

The funeral for Mr. Colvin was held at his home on Monday afternoon, Rev. T. J. Parsons conducting the service.

About twenty-five ladies and gentlemen drove to Sharon Saturday evening to hear H. Darwin McElrath, the well-known writer for the Inter Ocean deliver his stereopticon address on "China." At the close of which Mrs. McElrath stepped to the platform to be seen.

Mr. and Mrs. McKinney, formerly of Allens Grove, are new residents of Clinton.

Mrs. M. P. Treat, Mr. A. Bird and Mrs. Cornwell are still confined to the house.

Mark Stewart and wife now occupy their new home at Summerville.

Rev. T. J. Parsons has charge of the Y. M. C. A. meetings during this month.

Mrs. M. M. Murray is in Beloit assisting in the care of her father, Dr. Burlingame.

Mr. and Mrs. O. Derweldt served a six o'clock tea to some friends Friday evening.

Miss Alice Olds left on Monday for the Philippine Islands to teach.

An attempt in establishing a mail route north and west of here is being made.

A great many cases of mumps and whooping cough are reported.

BRODHEAD

Brodhead, Wis., Feb. 4.—P. Patterson was a Janesville visitor Thursday.

Messdames H. A. Harding and L. L. Hanford spent Thursday in Janesville.

Miss Kee of Orfordville was the guest of friends in the city last Thursday.

Mrs. W. P. Skinner entertained a party of friends at tea on last Thursday evening.

Mrs. Thiry Kingman went to Evansville on Monday for a few days visit with friends.

Mr. Arthur Schenck returned last Friday from a visit with relatives at Deerfield and Janesville.

Nic Krimble of Beloit was shaking hands with his old friends in Brodhead the last of the week.

Rev. and Mrs. Copland, who have been spending the past week in Indiana, arrived home Thursday evening.

Catarrh

The cause exists in the blood, in what causes inflammation of the mucous membrane.

It is therefore impossible to cure the disease by local applications.

It is positively dangerous to neglect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alternative and tonic effect. "I had catarrh three years, lost my appetite and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite, sleep well, and have no symptoms of catarrh."

Hood's Sarsaparilla Promises to cure and keeps the promise. It is better not to put off treatment—buy Hood's today

AN IDEAL MEDICINE.

A New Discovery Which Cures All Forms of Catarrh.

The tablets is the ideal form in which a remedy for catarrh of the bladder, urethra, prostate, etc., has been discovered. There is now, however, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their use have been highly gratifying.

The old time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success but being in liquid or powder form were inconvenient to use and like all medicines in liquid or powder form, lose their medicinal properties when opened or exposed to the air.

Stuart's Catarrh Tablets contain highly concentrated antiseptics, Red Gum, Blood Root, etc., which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all authorities are now agreed that catarrh is a constitutional blood disease, and local applications can have only a transitory effect.

The use of inhalers, douches, and sprays is a nuisance and inconvenience and can in no wise way compare favorably with the same antiseptics given in tablet form internally, where they can reach the stomach and blood and kill catarrh germs right where they are produced.

A prominent lawyer and public speaker of Pittsburg says: "I have been troubled with catarrh of the head and throat for twelve years. In this climate it seems impossible to get rid of it. The continual dropping of mucus from the nose into the throat caused irritation and hoarseness, seriously interfering with my public speaking. It took me an hour or more of coughing, gagging, expectorating and sneezing every morning before I could settle down to work and this condition gradually brought on catarrh of stomach, causing loss of appetite, poor digestion and a foul breath, which annoyed me exceedingly. My physician advised me to try Stuart's Catarrh Tablets and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach and I have no hesitation in recommending them. They are not only pleasant to take, but they seem to get at the very root of the trouble, because since using them I have had no trace of catarrh."

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package. They can be carried in the pocket and used any time and as often as desired since they contain no cocaine, mercury or any other injurious drug.

Kodol

Dyspepsia Cure

Digests
what you
Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

THE CIVIL SERVICE FARCE.

The next order issued by the government prohibiting government employees from besieging congress for increased salaries, is another evidence of the farce called civil service. It is said that the order creates consternation among the ranks of the clerks, and a vigorous effort will be made to have it rescinded. The trouble with the whole system is that the average government clerk is responsible to no one but the government. If in the postal service, and a complaint is made for inefficiency or neglect, the postmaster, who is supposed to be at the head of the office, may not discharge. He can simply report the case to the government, and in process of time an investigation follows, and if charges are sustained, the employee is removed. In the meantime the postmaster sits around and enjoys his insignificance. If he is section boss on a railroad, with half a dozen men under him, the case would be different, but because he is a government official, he sacrifices all claims to common sense or the ability to conduct the office.

If a clerk thinks he should have more pay, he takes the matter up with congress, and the custom had become so general that an extra secretary was needed by every member of the house to wait on this class of cases. As a result, the president was obliged to issue a prohibitive order.

The civil service farce should be abolished in all cases where experience is not necessary to efficiency. Give the postmaster the authority that belongs to him, with the right to select efficient help, and discharge when necessary, and the president as well as congress, will be relieved of responsibility, while the public will enjoy satisfactory service.

THE CUBAN QUESTION.

Congress is between two fires on the Cuban question. The sugar and tobacco interests on one side, demanding vigorously that the Dingley tariff be kept intact, and Cuba, on the other side, pleading for relief. There is no politics in the question. Planters from the far south, who would naturally favor free trade on any other proposition, are pleading for high tariff to protect personal interests.

Beet sugar men from all parts of the country are clamoring for protection to aid in developing an infant industry, while tobacco men, both growers, packers and manufacturers, are active in denouncing any reduction.

The president stands between these clamoring interests and the new republic, and says that the honor of the nation is pledged to the relief of Cuba and that something must be done.

Wisconsin happens to have a senator, who is a statesman, and in the emergency John C. Spooner comes to the front with a plan for solving the perplexing problem, in a way that will relieve Cuba, without detriment to American interests. Senator Spooner proposes that Cuba pay on sugar and tobacco the Dingley tariff now in force, and that in consideration of concessions to be granted to American goods, this country is to rebate forty per cent. of the tariff. This plan would not conflict with the sugar and tobacco interests of this country, and would give Cuba the relief that she needs. The money could be used by Cuba as a bounty to producers the same as our government pays a bounty to beet growers, which would certainly be very satisfactory to the island.

The president approves of the plan, and members of the senate who have been consulted, are also in sympathy with it. The prospect is favorable for adoption.

It will be remembered that Senator Spooner was prominent in suggesting plans, which were largely adopted by the island government, in organizing statehood. He has taken a large interest in the new republic, and while loyal to home industries, is not unmindful of obligations. He is a statesman who is a credit to the nation, and Wisconsin will be slow to sacrifice him for personal ambition.

A FALSE ALARM.

This reported change in the plans of the Chicago & Northwestern road, concerning the handling of business, appears to be without foundation, and the people will be very glad to know, through the company's representative, Mr. Glendon, that Jansville interests are not to be disturbed. It frequently becomes necessary in the changes that are constantly occurring, for men employed by railroads, to move from one locality to another. And in making these changes, it is not possible for the companies to consult the wishes of employees. A railroad man expects to adapt himself to these changing conditions.

To say that the Chicago & Northwestern company has a spite against Jansville, or any other town on their line, is the height of nonsense, and the statement is never made by a man who thinks twice before he speaks. The Gazette is in position

to know that the Northwestern company has the most kindly feeling for Jansville and will meet the city more than half way on any proposition for improvement. It is not the fault of the company that more yard room is not procured and Jansville's interests advanced. The only way this can be done is by the vacation of certain streets, to which the city has always been opposed. A liberal policy on the part of the city will meet with ready response by the local roads, and the responsibility rests with the city.

DR. GEORGE M. STEEL.

The Methodist church recently lost from her ranks one of the brightest men connected with the service. Dr. George M. Steel, who died at the home of his son in Kenilworth, Illinois, had been connected with the church of his choice, either as pastor or teacher, for nearly half a century. For fourteen years he was president of Lawrence University of Appleton, and the impress of his life was a benediction to many young men, who are today occupying positions of trust and responsibility. While in Appleton, Court street church was built in this city, and Dr. Steel supplied the pulpit for some months until a pastor was assigned. He is remembered by the older members of the church, who enjoyed his ministry. Born in Vermont, he inherited the characteristics of the sturdy New Englander, and he brought to his work a spirit of earnestness and intelligence, that made him strong and helpful. His life was his eulogy. He lived to a purpose, and died triumphantly.

There are some cranks in Ohio, W. C. Smith of Springfield, recently dedicated on Optimists' Temple in that city. Mr. Smith made himself popular as proprietor of the Golden Rule Hotel. His guests were free to come and go at their pleasure and pay or not as they pleased. He lately had a vision in which a halo of light about the size of a molasses barrel, gobbled him up and he was translated for the day. He should change his drinks.

While Rev. Parkhurst is sorting out the souls that are immortal, and Professor Pearson is explaining the miracles of the bible, the average mortal will continue to believe in the old faith. There are some things that Parkhurst and Pearson will know more about at the beginning of the next century.

The memory of a kiss by General La Fayette in 1824 is pleasantly remembered by Mrs. E. M. Briggs of Waukegan. There are some women younger than Mrs. Briggs who would wear a blush of surprise, if kissed by their husbands in 1902.

Alexander Dowle has discovered that the modern Elijah is very much like other men, in the eye of the law. Zion may be sacred to Alexander, but it possesses an acre value in the courts, and is not exempt.

The example of the United States will be followed by Great Britain in settling indemnity claims with China. Another evidence of Christian civilization.

The ground hog came out Sunday morning and sat around enjoying his shadow all day. That means that there will be six weeks of winter in March.

Secretary Gage will soon decide whether to locate in Chicago or in the east. His many western friends will be pleased to see him back in the Windy City.

The Biddles executed their own sentence, and the wife of the warden, who assisted in their escape, has also paid the penalty. Romance in real life is of every-day occurrence.

E-Governor Shaw takes hold of his new portfolio like a veteran. Mrs. Shaw is well received at the capitol, in spite of her much advertised gowns.

There are plenty of illegal sportsmen in this neck of the woods who should command the attention of the game wardens.

The new postmaster-general is already winning laurels in Washington. This is no surprise to Wisconsin people.

Shall we have a chamber of commerce. A few energetic men could organize it and it would be helpful and popular.

The oil inspector can strike oil in Rock county, when the northern field gives out.

While the small pox is not dangerous, like poverty, it is mighty inconvenient.

It is fortunate that Lent comes once a year. Society needs a rest.

Plenty of time for winter yet.

PRESS COMMENT.

Clintonville Tribune: The following is a list of eight classes of persons who do a town no good: First, those who go out of town to do their trading. Second, those who oppose improvements. Third, those who prefer a quiet town to one of push and business. Fourth, those who think business can be done slyly, and without advertising. Fifth, those who deride public spirited men. Sixth, those who oppose every movement that does not originate with themselves.

Seventh, those who oppose every public benefit that does not appear to benefit them. Eighth, those who seek to injure the credit of an individual.

Fond du Lac Commonwealth: St. Croix county has joined forces with a score or more of counties that are sending in petitions to Senator John M. Whitehead asking him to become a candidate for governor before the republican state convention. These petitions which are being signed by thousands of republicans in every section of the state show the drift of public sentiment and point out the urgent need of a strong republican leader at this time, just such as Senator Whitehead would make.

Appleton Crescent: After praying for forty years for a baby a New Jersey couple placed a small want ad in a newspaper and that same night a bouncing boy was left on their doorstep. Prayer is all right if you are not in a hurry, but for quick results use printer's ink.

La Crosse Rep and Leader: A Pennsylvania man has got the world's future all fixed up. He says that by 1912 all the present systems of government will have been done away with. He may know all about it, but it is evident that candidates for office are still on the hustle.

Portage Register: The number of signatures to the Whitehead call in Portage now exceeds 200 republicans. We trust the Free Press will call attention to the "evidence of weakness" the movement here exhibits. It is alarming, very—to the other fellows.

Racine Journal: Republicanism in Wisconsin is once more assuming features of recognition. Populism is fast disappearing from its ranks and the veterans are beginning to emerge from the cave into which they were thrown some time ago.

Milwaukee Sentinel: An Iowa woman has sued a dead man for breach of promise of marriage and recovered \$6,000 damages. The poor fellow is left with only a small balance of \$50 to start housekeeping in his present location.

Sheboygan Telegram: Chicago wants to quarantine Wisconsin on account of the alleged existence of small pox in this state; Wisconsin ought to quarantine Chicago on account of its vice and immorality.

Marquette Eagle: The girl who depends upon a fortune teller to inform her what her future will be is not the girl who will be likely to make a good wife.

Oshkosh Northwestern: "All things come to him who waits," according to the old adage, but in the case of the Oshkosh postmaster there are several anxious waiters and only one job so that some one must necessarily be disappointed.

Milwaukee Sentinel: We are getting to be so well satisfied with ourselves that we seldom think it worth while to thank God for anything except by way of compliment.

FIRE DESTROYS A SHOE FACTORY

F. M. Marzluff & Co's
Plant Wiped Out Late
Last Night.

LOSS IS OVER \$75,000

Insurance Will Reach About
\$52,500--Large Quantity
of Goods on Hand.

OVER 100 OUT OF WORK

A fire that totally destroyed the F. M. Marzluff shoe factory and caused a loss of over seventy-five thousand dollars occurred last night about 11:30 o'clock. The blaze was discovered by Watchman George T. Viney, who had just completed his rounds and was in the lower story of the building near the office. He heard a noise like something heavy had fallen up stairs and walked to the elevator shaft and looked up. He saw a light up the shaft and ran up the stairs outside the building to the third floor and as he opened the door he discovered the cutting room all in flames and immediately ran to the West Side Fire station and gave the alarm.

Fire Had a Good Start
The boys at the West Side station were almost expecting something of this kind as their attention had been attracted to the Marzluff building half an hour before by a light that shone through the front windows and appeared to rise and fall like the light from an open door of a soft coal stove. They thought it was either the stove or the watchman's lantern.

When the alarm from box eighteen was sent in the fire had got a good start and huge clouds of smoke and jets of flame were spurting out of the rear end of the building. The aerial ladder was at once rushed across the race way and stationed in front of the building and a lead of hose carried to the top floor where it could be poured in the front windows. A two inch stream was worked from the front of the building being two leads salmased from the stand pipe near the Jeffris Company building.

Four other streams were run from the nearest hydrants and all combined poured a flood of water on the burning building.

Flames Hard to Quench
The fire seemed to be a hard one to down and despite the efforts of the firemen and the immense amount of water used steadily burned from the top floor to the bottom of the building and made a complete ruin of it.

The night was bitter cold and the firemen were soon covered with ice from head to foot and had to be relieved frequently while they ran over to the engine house to thaw out their half frozen hands and feet.

The ice caused by the flying spray from the hose covered everything and interfered greatly with the movements of the men. It was about two o'clock before the fire finally burned down the building and was got under control.

Loss \$75,000; Insurance \$52,500
Mr. Marzluff was soon on the ground after he was notified of the fire but could do nothing but look on while his factory was consumed. Both he and Mr. Rau his partner in the business said that their loss would be in the neighborhood of \$75,000 and their insurance was about \$52,500.

One thing that made their loss much heavier was the large quantity of goods on hand for spring delivery. Mr. Marzluff stated that there was about \$9,000 worth of goods all ready for shipment, which were destroyed.

Just at the present time the factory was being rushed to its fullest capacity and a large force of men and women were employed all of whom will be out of work for some time. Mr. Marzluff considers that their loss above the insurance is anywhere from twenty to twenty-five thousand dollars.

Total of the Insurance
The whole amount of the insurance carried by Marzluff & Co from the corrected list is \$52,000. Two thousand was in stock stored in a building across the alley and the balance, \$50,000 was on the stock and machinery. The amounts of the policies and the names of the companies are as follows:

Will Continue Business.
Mr. Marzluff, when seen this morning, stated that they carried \$53,000 insurance on the factory, but that their loss, not counting what they will lose in a business way, would be over \$75,000.

They have not yet decided what they will do, but will in all probability continue the business in this city. They have rented offices No. 210 and 212 in the Hayes Block and will make

their headquarters there until they rebuild or start up somewhere else. The Marzluff Shoe Co. has been in operation in this city for the last fifteen years and is one of Janesville's leading industries. The firm is now composed of F. M. Marzluff and Frederick Rau, Jr., who have been associated for the last eight years. This firm has built up a trade that extends from ocean to ocean and has even invaded Europe.

Loss on Building \$10,000
The building is owned by M. G. Jeffris and Ogden H. Fethers and was insured for \$5,000. Mr. Jeffris places their loss in the neighborhood of \$10,000. The building is almost a total loss as it is completely gutted and the larger part of the walls will have to be torn down.

It was a fortunate thing that the wind was from the north last night and that there was a coating of snow on the roofs of the buildings. Millions of sparks and blazing pieces as large as a man's hat were blown onto the roofs of the buildings on the south side but did no harm on account of the snow. The wind being from the north blew the flames and heat away from the frame building the factory and also kept it from the Jeffris Co. plant.

The firemen suffered severely with the cold but were given warm coffee and provided with a lunch at Watson's after the fire was practically out.

Mrs. F. S. Eldred entertained the Woman's History Club and auxiliary at her residence on South Jackson street Saturday afternoon from four to eight o'clock to meet Prof. Theodore Wright of Beloit college. The topic was "Aristophanes," the celebrated ancient Athenian comic poet. After the papers by the members of the club had been read, Prof. Wright took up the subject and gave the ladies an exceedingly interesting talk on the comic poetry and the pieces made by this interesting Greek four hundred years B. C.

The Woman's missionary society of the Baptist church will meet at the church parlors Thursday afternoon, Feb. 6, at 4 o'clock sharp. This is the annual business meeting for the election of officers and the planning of the year's work. Every woman of the congregation is especially invited to be present. Please bring Mite envelopes.

LARGE CAR BARN AND SHOPS BURN

BUILDING WAS DESTROYED AND
THREE CARS BURN UP.

The Firemen Made Good Time, But
the Whole Interior of the Building
Was on Fire When They Arrived--
The Loss Will Reach the
Sum of \$5,000.

This morning for the third time within twenty-four hours Janesville was visited by fire. The third alarm came shortly after nine o'clock from box 333 at the corner of McKee boulevard and James Place, and called the department to the plant of the Janesville Street Railway Co., where the large car barn and shop was in flames. The building was completely gutted, and three cars, number 8, 9, and 5 destroyed.

The fire was discovered by the engineer at the power house adjoining the shops and barn. There was something wrong with his power, the circuit was broken and he stepped into the car barn to see what caused it. When he opened the door he was surprised to see the Forest Park, band box, No. 5, all in flames.

He called some other men to his assistance and together they tried to run the car out of the barn, but the flames were so hot that they had to give it up and let it burn.

The engineer then telephoned the fire station and box 333 was struck. The department made good time but the whole interior of the building was on fire when they arrived.

Two streams of water were soon playing on the building and a considerable portion of the walls and roof were saved. The Forest Park car is supposed to have caught from the heater used to warm the car in cold weather. The loss is about five thousand dollars and is partially covered by insurance.

The Street Railway Company carried ten thousand dollars' insurance on their power house, car barn, shop and cars at Spring Brook. Five thousand of this sum is placed with Carter & Morse as follows: Queen, \$1,000; St. Paul, \$1,000; Western, \$1,000; Hanover, \$1,000; Phoenix, \$1,000; Hartford, \$1,000. The other five thousand is with Hayner & Beers and is divided as follows: Merchants, 1,000; Fire Association, 1,000; Traders, 2,000; Commercial Union, 1,000. The loss to the railway company is about fifty per cent of the insurance.

SOME FINE READING BY MRS. BEECHER

The Entertainment Given in the People's Lecture Course Pleased the Audience.

The entertainment of the People's Lecture course which was given last evening was all and more than the press notes had promised. Mrs. Gargill Beecher in a program of select readings performed the difficult task of providing an evening's entertainment single-handed in a manner that insured her a warm place in the hearts of local entertainment patrons. Catching her audience with her opening number, an adaptation from Edward Everett Hale's story of a Man Without a Country, Mrs. Beecher carried it with her through the program, ever increasing the interest and delight until when the last number was finished the audience felt that the evening had passed all too quickly.

The selections for the evening were all taken from contemporary literature. The characterizations in the pieces were widely different and gave her an ample opportunity to display her versatile powers for impersonation. One number which was rendered in an especially creditable manner and was most effective with the audience, was "The History Lesson" from Edmund Rostand's L'Aiglon. It afforded a suggestion of Mrs. Beecher's capacity for tragedy which created a desire for more. In all the different impersonations Mrs. Beecher proved equally entertaining. A dialect or brogue or impersonations of the masculine of feminine voice were given with ease and naturalness. The promoters of the People's Lecture Course are to be congratulated for providing so excellent an entertainment.

HOWARD-DORSET COMPANY IS GOOD

A crowded house greeted the Howard-Dorset company in their opening place at the Myers last night. The company is an excellent one and in the clever rendering of the peace selected proved its right to rank with the best companies of its kind that have visited the city. Miss Dorset and Mr. Howard won much applause in the leading roles. Miss Mantell, who was formerly Miss Burnett of this city had many friends in the audience who were delighted with her acting and the specialties she gave between the acts. The company will be at the Myers every evening of this week with the exception of Wednesday. The piece presented to night will be "The Prince of Patches."

In Municipal Court

H. Muellenschlaeder, of the firm of Muellenschlaeder & Frieloff, saloon keepers on West Milwaukee street was before the municipal court this morning on the charge of selling liquor to a minor.

The complaint was sworn out by Thomas C. Joyce, who claimed that his boy, Thomas Z. Joyce purchased liquor at the saloon on Jan. 27 and became intoxicated.

Muellenschlaeder pleaded guilty and was fined \$25 and costs in all \$27.50. January 27 was a very cold day and young Joyce while intoxicated lay down on the street and froze his hands quite badly. He also claims that some one stole his overcoat and \$10 in money, while he was under the influence of liquor.

We Are Most Serious

When we tell you that it is doubtful if there is in Janesville a coffee at any price that equals our "Purity" at 34 cts. Its a pure blend of Mocha and Java, and we have taken extra pains in order to get a coffee that is well deserving the name of Purity. We do our own roasting—in fact we over-see this special blend right from the start. No recommendation can be too high for this blend. Coffee critics throughout the city have phoned us many compliments of late. If you have been paying 40. or 45 cents for coffee, try "Purity." A free sample for the asking.

Mr. Foote will be given a most hearty welcome on his arrival in this city as well as the tailors who will be in charge of the shop.

Telephone Wires Down

Carelessness on the part of a farmer yesterday, who resides south of this city resulted in the cutting off of telephone communication between this city and Illinois points over the Wisconsin companies' lines. He was engaged in cutting down trees and felled one in the wrong direction. It struck the wires and severed them. The result was that telephone communication was entirely cut off between this city and Beloit and Rockford till late in the day. Linemen arrived upon the scene and repaired the break.

WISCONSIN IS A HEALTHY STATE

Remarkable Gathering of Old Timers
at the Residence of Alderman
Frank E. Fifield.

The gathering at E. G. Fifield's eighty-fifth birthday Saturday is a pretty good indication that Wisconsin is second to no state in the union as a health resort and Janesville is the center of the healthy district.

Twenty-nine old settlers gathered at his home with Mr. Fifield whose combined ages amounted to 2,155 years or an average of 74 years. The oldest man present was Mr. James Mendonhall, 91 years of age, and he came to Wisconsin in 1835, 67 years ago and two years earlier than Mr. Fifield who came in 1837.

This was a remarkable gathering of gentlemen, all of whom at one time or another having been prominently identified with the business advancement of Janesville.

AMUSEMENT NOTES.

The invigorating, blithesome, rollicking "Belle of New York" will be at the Myers Grand Feb. 11. The story of how "The Belle of New York" after capturing New York, crossed over to London and ran for 697 nights at the Shaftesbury theater, is too well known to the theatergoers to require repeating.

The fact that Mr. Burgess "Himself" is again making a tour of the principal cities, is regarded as one of the principal events in the theatrical announcements of the present time, as he and his organization stand high in the estimation of the principal critics of the land. He will be at the Myers, Feb. 6.

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well, if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." Sold by People's Drug Store and King's Pharmacy.

W. E. Clinton President

The annual meeting of the stockholders of the Loan, Savings and Building association was held at the office of Silas Hayner last evening and the report of the secretary showed that the business of the association was in a fairly satisfactory condition. The following officers were elected: President—W. E. Clinton. Vice President—W. F. Palmer. Treasurer—John G. Rexford. Secretary—A. P. Burnham. Attorney—John M. Whitehead. Directors for three years—Silas Hayner, B. S. Nelson and L. A. Hemmens. Director for two years—W. H. Blair.

When you want a phylax that is mild and gentle, easy to take and pleasant in effect use Chamberlain's Stomach and Liver tablets. Price 25 cents. Samples free. Every box guaranteed. For sale by People's Drug Store and King's Pharmacy.

POINTERS TO PRE- VENT SMALLPOX

Continued From Page 1.

and you are subject to a fine or imprisonment or both for violation of such quarantine.

Would you contribute to the death of one little child in your neighborhood? No! a thousand times No! Would you contribute to the sickness and distress in a poor, hard working family? Certainly not! Then act well your part and let your motto be not "how can I dodge the quarantine laws" but "how can I assist the authorities and prevent the spread of this disease."

Quarantine in the house or home where the person is found, may be as well as we can do under the present methods. But the quarantine card should be displayed in full public view and bear the name of the disease in letters distinctly readable by normal vision at one hundred feet. Each quarantinable disease should have a card and color distinctive of itself, e. g.

Scarlet fever, (scarlet red), diphtheria, (striped red and black), small pox, (orange yellow), &c., then the card can be seen and the public know that quarantine or home isolation has been established.

Graz, Austria, Feb. 4.—An avalanche from Mount Rorbrach has partially overwhelmed the village of Bieberg, near the town of Villach. A number of persons have been killed.

St. Louis Bribery Denounced.

St. Louis, Mo., Feb. 4.—Judge O'Neill Ryan, in charging the February grand jury, delivered a most scathing denunciation of bribe-givers and bribe-takers and ordered the grand jury to continue the investigation of the bribery scandal in connection with the St. Louis and Suburban railway legislation, which was begun by its predecessor.

Henry Nicolaus, the director of the St. Louis and Suburban railway company, for whom a warrant was issued in connection with the Suburban bribery investigation, appeared in court yesterday and gave a bond for \$5,000 for his appearance. Other men indicted also appeared and renewed their bonds.

Plot Against Chinese Empress.

Victoria, B. C., Feb. 4.—News of a conspiracy to assassinate the emperor dowager of China and members of her court was received by the steamer Glenesk. The discovery of the plot was made while the court was at Kalfenz. One of the conspirators confessed under torture that attempts were to be made to wreck the imperial train and fire on the empress dowager.

Merchant Charged with Arson.

Danville, Ill., Feb. 4.—B. E. Oppenheim, a wealthy merchant of Hoopston, has been indicted by the grand jury for arson. It is alleged that he is implicated in the fire that devastated the business portion of Hoopston last December. He gave bond for his appearance at his trial in this city.

Mothers, do you know

that a perfectly healthy baby never cries. When the little one does cry there's something wrong, and generally it's the stomach. Paregoric, Soothing Syrups, Cordials, Teething Syrups and Pain Killers contain opium and morphine. Don't use them. They are harmful—costly too. Such drugs constipate and derange the digestive organs.

Dr. Caldwell's Syrup Pepsin and Herb Laxative Compound

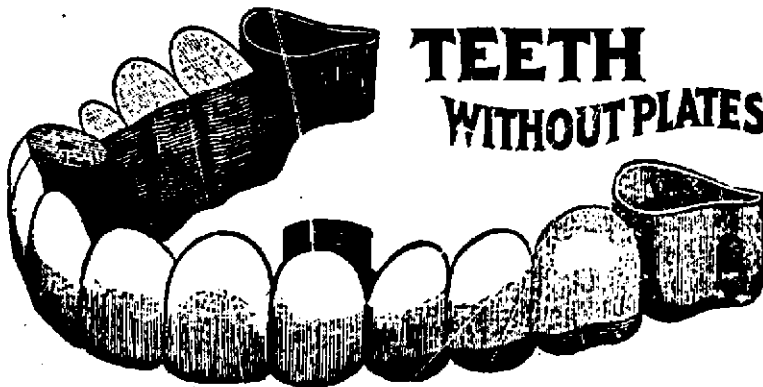

is pleasant to take, augments and supplies the natural digestive ferment, acting as a gentle laxative by the power to assimilate food, makes and keeps babies in health and good humor. A trial will convince you.

GENTLEMEN: For constipation I would cheerfully recommend Dr. Caldwell's Syrup Pepsin.
